

PIXEL POINT — INTERIORS —

DESIGN • FITOUT

| COMPANY PROFILE • 2026

STUDIO / DUBAI

Who We Are

“The details are not the details. They
make the design.”

CHARLES EAMES

DESIGN INTELLIGENCE. DELIVERY DISCIPLINE.

Spaces considered down to the joinery—not merely
decorated.

10+ Years MULTI-COUNTRY DELIVERY EXPERIENCE

Pixel Point Interiors is a Dubai interior design and fit-out studio built on a simple conviction: a room’s character is decided in the details most people never consciously see—the reveal at a skirting line, grain matched across veneer, and the way light settles across a hand-finished surface.

We are the sister concern of Emirates Ark Technical Services LLC, an established Al Qusais-based fit-out contractor with more than 10 years of experience delivering projects across multiple countries. Its in-house design, engineering and warehouse-led model gives Pixel Point a dedicated design voice backed by proven construction intelligence.

Every concept is tested against how it will be built, budgeted, procured and installed. The result is a studio that designs with architectural clarity and thinks with a contractor’s discipline—and the reason our drawings are made to survive contact with site.

IN-HOUSE, START TO FINISH

Design, engineering, procurement and delivery share one lineage.

TRUST, THEN CRAFT

Ownership, safety, quality and accountable site delivery.

PORTFOLIO WITHOUT BOUNDARIES

Residences, offices, restaurants and commercial interiors.

DEPTH OVER DECORATION

What supports a space matters as much as what is on show.

OUR POINT OF VIEW

A memorable interior does more than look complete. It feels inevitable.

Pixel Point brings spatial thinking, technical coordination and site delivery into one considered process. We design around the way a place must work—and the way it should make people feel.

CLARITY BEFORE COMPLEXITY

Every decision begins with a precise brief and a coherent idea.

DELIVERY WITH OWNERSHIP

Design intent stays protected from drawing room to handover.

DETAIL WITH DISCIPLINE

Materials, junctions and lighting are resolved as one visual language.

SELECTED EXPERTISE

Built around the brand. *Resolved for real use.*

From high-value retail to high-performance workplaces, we align the experience customers see with the technical systems the space needs.

01 Bespoke Jewellery & Luxury Retail

Showcases, illumination, consultation zones and circulation planned as one refined sales journey.

DISPLAY RHYTHM · PRODUCT LIGHTING · BESPOKE JOINERY · BRAND INTEGRATION

02 Corporate Offices & Workspaces

Clear planning, efficient coordination and a professional environment that works from day one.

SPACE PLANNING · MEP COORDINATION · ACOUSTIC COMFORT · TEAM FLOW

Design that communicates. Detail that performs.

LUXURY RESIDENTIAL INTERIORS ·
RETAIL & HOSPITALITY

Made for the way *people live and gather.*

Warmth, comfort and character are designed into the plan—not added at the end. We balance beauty with durability, privacy, movement and maintenance.

Material harmony

Layered lighting

Custom joinery

Everyday comfort

A CONTROLLED JOURNEY

One accountable path. *From first idea to handover.*

Clear decisions, coordinated information and visible ownership keep design, budget and programme moving together.

01 Discover

Brief, site, priorities, budget and programme.

02 Design

Planning, concept, mood, materials and approvals.

03 Detail

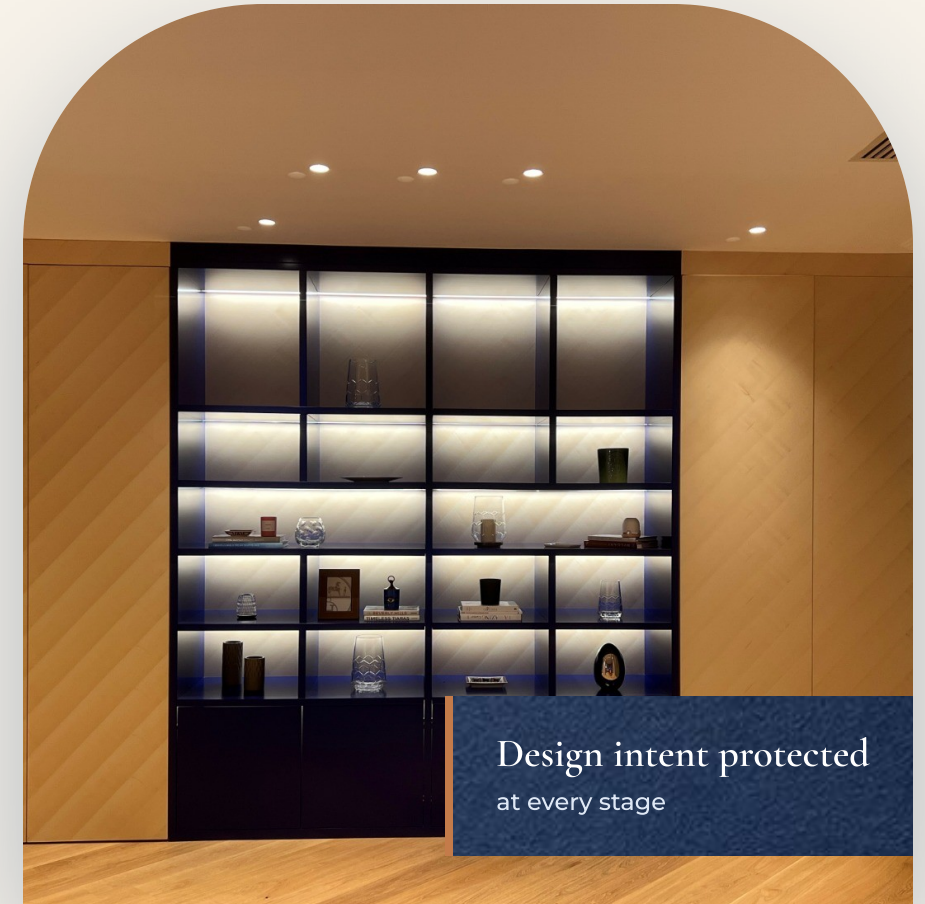

Technical drawings, MEP, joinery and procurement.

04 Deliver

Site execution, coordination and quality reviews.

05 Handover

Snag closure, documentation and aftercare.

CAPABILITIES

One team around *the whole interior.*
